andama

FOR PHYSIOS

A PATIENT OF YOURS SENT YOU THIS

Your patient wants to follow your plan at home in Andama.

Your plan goes home with them — on their phone, every day. You see who's keeping up.

> Free for your first three patients. No card required.

01 More patients finish your plan.

It's on their phone every day — your exercises, your order, a short check-in. The days between visits stop being a blank.

02 Know on day two, not at the next visit.

Who hasn't opened the plan, who's struggling, who's waiting for you. The one who needs you comes first.

03 Answer between visits — when it suits you.

They write, send a voice note or film an exercise for you to check. You reply in your own time.

04 Get paid for the days between.

You set the price for follow-up. Patients pay you directly — Andama takes 0% from your patients.
